

Research Funding and Career Development

In cooperation with the Research Support Office

Workshop Rationale and Objectives

Researchers are increasingly faced with expectations to raise 3rd party funds if they want to pursue a successful research career. Yet, applying for 3rd party funds is not an end in itself and could even be detrimental to research careers, if disconnected from own scientific or life plans or scientific goals. This workshop, thus, aims to clarify which kinds of funding opportunities are suitable for the participants' respective purposes. In addition, it offers insights into the objectives and habits of research funding institutions and peer review procedures. Individual short coaching sessions during the second day will help the participants to pave their way towards successful applications in view of their needs and ambitions.

Please note: Participants are asked to submit a CV until 9 January 2013! Confidential treatment will be guaranteed.

The trainer

Dr. Beate Scholz has worked internationally as a strategy consultant, project facilitator and trainer since 2003 (until April 2008 in addition to her position at the German Research Foundation). She also serves as reviewer to several research organisations.
